Tactical Headsets

Cobalt offers the largest selection of tactical and special application headsets available anywhere.

Our **TM** throat mic has become one of the most popular Cobalt products. It features dual mic pickup build into a wrap around back-of-neck plastic house with an integrated acoustic tube ear speaker kit. Our throat mic is comfortable to wear and provides loud and clear speech audio. It is applicable for use with protective face gear such SCBAs, but it works great as a noise canceling mic in high noise areas.

TTAK is a single ear low profile headset which is secured to the head with elastic straps. Our newest headset is ideal for wear with kevlar helmets, welding shields or PAPRs. **TTAK** comes with a combination trigger PTT and jack assembly.

MORE TACTICAL HEADSETS ON BACK COVER.

AMPS-BLUE Wireless Speaker Mic

Heavy Duty, Water Resistant, Wireless Speaker Microphone

The new **AMPS-BLUE** is a loud, heavy-duty Bluetooth remote speaker microphone, designed to be water and dust resistant, and with extended battery life.

The **AMPS-BLUE** joins our **SPML-BLUE** compact BT speaker mic and

BLUE-MIC BT

lapel mic surveillance

kit. It also mates with

our **Cobalt BLUE BT** radio adapters.

BLUE BT-TOP2 Headset Kit w/Mic Choice

Bluetooth Headset Kit with Lightweight Boom Mic or Rugged Throat Mic

The **BLUE BT-TOP2** has an 4-contact 3.5 mm audio jack (same as Apple iPhone) for compatible wired audio accessories such as our signature **TM-SH** throat mic or **DLISM-SH** D-ring ear shell. Turn your boom headset into a Bluetooth headset! Other Cobalt headsets with compatible connector cords are available, or any iPhone, as well as other wired smart phone headsets

FEATURES:

- 10+ hours of battery life
- Built-in wireless PTT
- Built-in microphone (for earphone-only applications) with auto-switch technology
- Covert LED, hidden so it does not attract attention
- Adjustable volume controls that remember settings, even when unit is turned off
- Micro USB charging jack compatible with 1000's of aftermarket battery chargers
- 360° swivel metal clothing clip allows user to wear comfortably
- Compatible with Cobalt BLUE BT radio adapters and most cell phones (supports dual-pairing operation)

SPMR Speaker Microphone

OWM-style Speaker Microphone

This solidly built speaker microphone is modeled after radio manufacturers' remote speaker mics, but at a discount. Like other Cobalt RSMs, it has a 3.5 mm jack for audio ear kits. IP56 Water rated.

TTAK Tactical Headset

Tactical Headset with Nexus Jack/PTT

Our **TTAK** tactical headset is a single ear speaker with boom microphone which is secured to head with adjustable elasticized straps. With it low profile, close to head design, the TTAK can be worn with Kevlar tactical/combat helmets, welding shields, PAPR masks and other specialized head or face gear. It also will stay in place on head during violent and kinetic movement such as while running. **TTAK's** cord is terminated with a Nexus U-94 NATO plug. Purchase with our combination U94 jack/trigger grip push-to-transmit switch/heavy duty clothes pin-style clothing clip with radio connector cord. Most radio cords available.

T-EM Ear Bone Microphone

This compact, lightweight ear bone microphone combines both a speaker and a special microphone that picks up sound through bone vibrations in the ear canal. Its unique shape helps secure the ear microphone in the ear. Perfect for security personnel who must retain the ability to help, hear and speak directly to those not on the communication system. The **T-EM** may also be worn with protective masks and works in high noise environments, since the in-ear microphone will pick up less background noise.

FEATURES:

- Integrated vibration mic & high-performance speaker
- Noise reducing mic element (typically >95dB)
- Ear mic design is comfortable and secure
- Rugged Kevlar reinforced cables
- Jack for optional remote finger PTT
- Durable PTT module has reinforced cable strain reliefs

T-10 & T-20 Lightweight Headsets

Lightweight Padded Headsets

Our newly re-designed **T-10** and **T-20** series lightweight single and dual ear headsets set a new standard for lightweight headsets. These high performance padded headsets with noise reducing boom microphone is lightweight and extremely comfortable to wear. Padded headband and speaker combined with rugged over-the-head design make these headsets the perfect for users who have to wear headsets for long periods of time.

FEATURES:

Lightweight over-the-head headset T-20 dual ear headset comes with a removable strap and buckle 90 degrees from headband. By shifting headband to neck and cloth strap to over head, it then can be worn with hard hats, helmets or other head gear. Features padded, adjustable metal headband (with replaceable padding). **T-10 single ear headset** features adjustable padded T-bar.

Both styles feature:

- Adjustable speaker housing assembly
- Replaceable leatherette speaker cushion, cloth covered foam also available
- Flexible metal boom mic with replaceable windscreen
- Noise reducing condenser microphone element (available as electret, pre-amp'd electret and dynamic)
- Rugged in-line PTT switch for two-way radio uses
- Reinforced strain reliefs at all attachment points
- Versions available for portable and mobile radios, headset intercom belt packs or desk stations, general aviation, dispatch and wireless phones.

CobraMic

The Cobra noise cancelling mic for extreme noise conditions is available for an extra charge.

Our signature Cobalt "blue" muff headsets are known for their comfort, ruggedness and the wide variety of devices and applications they support.

Our muff headset styles include 24 dB hearing protection rated behind-the-head support for wear with hard hat or helmet, (also available as vented to allow hearing of outside noise), hearing protection over-head support, single ear and hearing protection hard hat slot mount. The behind-head, over-head and hard hat slot mount styles are also available as listen-only headphones with a jack for speaker mics.

Cobalt headsets are available to plug into most brands and models of portable two-way radios, mobile radios, wired and wireless intercoms, and wireless telephony.

We also offer Cobalt fire truck intercom systems for use with our muff headsets.

BT-TOP Bluetooth adapter wirelessly links Cobalt headsets to portable and mobile radios and cell phones.

TACTICAL Headsets, continued

The **TT** and **TTC** are bone conduction dual speaker headsets with vibrate sound energy thru the skin and bone to the inner ear. The speaker element sits on the temple or side burns leaving the ear canal free to hear background sounds or ability to wear hearing protection ear plugs while monitoring radio communication. The headsets use micro-flex gooseneck boom microphones. **TT** comes with a standard inline PTT switch.

The economical **TKLSA** has a similar appearance to the **TTC** and **TT**, but uses a single over the ear speaker to hear audio.

The standard assembly for the **TM**, **TTC**, **TKLSA** is our large round inline tactical PTT switch. Our belt and finger switch combo may be substituted for an additional charge.

Compatible cords for most radio models are available.
