

SPML-BLUE: Wireless Bluetooth Speaker Microphone

The **NEW** Cobalt **SPML-BLUE** is the Bluetooth-enabled version of our popular **SPML Remote Speaker Microphone**, which connects wirelessly to any of our Cobalt Radio Adapters, and is compatible with the optional Cobalt **BT-PTT** wireless Bluetooth PTT (sold separately).

FEATURES:

- Great sounding transmit and receive audio, just like the wired version!
- Compact size: measures only 3" H x 2" W x .6" D (excluding clip).
- Lightweight: weighs less than 2.5 ounces.
- Simple controls make operation easy!
- Integrated PTT button. To transmit, use either the PTT button on the side of the **SPML-BLUE** or on the Cobalt radio adapter.
- Also compatible with the optional Cobalt **BT-PTT** wireless Bluetooth PTT (sold separately).
- Long battery life: up to 11 hours active under typical operating conditions. USB wall charger included.
- Spring loaded metal reinforced clothing clip can be rotated 360°.
- Durable polycarbonate housing.
- Built-in earphone jack for additional privacy and security. Compatible with standard 3.5 mm earphone plug such as our **KL5H**, **KL5L**, or **KL5C**.
- Because receive audio volume is controlled using the radio's volume control, this product is not recommended for use with our **BLUE-MOBILE** series adapters that have fixed level receive audio.

Cobalt **KL5H-S3.5** ear kit shown with **SPML-BLUE**. Earphone sold separately.

BLUE-MIC: Bluetooth Surveillance Kit

Bluetooth Lapel Microphone technology has arrived!

The new **BLUE-MIC** delivers a full 12 hour shift talk time (typical), easy pairing, no connectivity loss, and a fully functional PTT.

12-Hour Talk Time!

Other features include:

- Volume control
- USB charging port
- Directional mic (sensitive to a whisper)
- Clothing Clip
- 3.5 mm ear kit pack (listen only ear kits sold separately)
- Rechargeable/replaceable battery

And most importantly:

A strategically placed pairing light on the back side of the module!

The **BLUE-MIC** can be paired with our **BLUE** 2-way radio adapters and other BT devices, including mobile phones.

BLUE-MIC BT surveillance kit includes acoustic tube ear speaker for listening. Other ear kits available.

Cobalt Blue™ Wireless Bluetooth Adapters allow compatible BT headsets and other audio devices to connect with portable 2-way radios. **BLUE** pairs easily with Cobalt **BT-TOP** adapters for muff headsets, **SPML-BLUE** speaker mics, **BLUE-MIC** surveillance kits, the **BLUE-HS** headset, and the **BLUE-PTT** wireless tx switch. It will also pair with many other BT headsets.

The adapter will remember paired components even when turned off. Patented “smart switch” feature automatically routes radio audio and mic to BT or wired accessory. When no audio accessory is connected, audio and mic are routed to radio’s internal speaker and mic. This feature does not work on all radios.

Multi-pin radio adapters shown on page 20 are powered by the connected radio (no adapter battery).

Some adapters feature Herose quick-disconnect jacks allowing use of Cobalt QD wired audio accessories when not using BT accessories--without removing adapter from radio. Adapters shown on page 21 contain a rechargeable Li-ion battery and come with wall charger. Typical battery life about 12 hours before requiring recharging. The battery powered adapters are available in a longer cord version (at no extra charge), positioning PTT where it is easier to reach and improving wireless rang. Specify **LC** after part number such as **BLUE-MSC-LC**.

** Portable radio connectors not shown are supported by purchasing the quick disconnect audio adapter for that radio with the BLUE-HER quick disconnect BT adapter.
